🌐 [LinkedIn](#)

I am a highly creative, dedicated, and passionate Computer Science Graduate with a keen eye for detail, strong problem-solving skills, and a consistent record of delivering high-quality work.

As a Flutter expert, I am committed to excellence and innovation. More than just a developer, I am a keen learner who stays updated with the latest industry practices to ensure every project exceeds expectations.

## Experience

### Alright Tech (SMC-Pvt)Ltd (Onsite)

AUG 2023-SEP 2023

- Focused on front-end development during my Flutter internship, creating responsive applications and writing clean, maintainable code.
- Worked on various projects, gaining experience in Firebase application development and learning code architectural patterns like MVC.
- Implemented state management techniques such as Provider for efficient application state management, enhancing my practical skills and ability to collaborate in a professional setting.

### Final Year Project (SSCASEIT)

Sept 2023 - June 2024

- Developed a Flutter-based transportation app with features like ride booking, ride-sharing, gender-based ride booking and sharing, driver earnings tracking, route optimization, real-time updates, and secure authentication.
- Utilized technologies such as Firebase, AWS, and Google Maps API to ensure a seamless and efficient urban commuting experience.
- Focused on delivering a user-friendly interface and robust functionality, providing convenience and reliability for both drivers and passengers.

### StudentTravel App

Apr 2024-Jul2024

- A client project involving location tracking features that functioned in both background and foreground, as well as automated and manual push notifications.
- Developed document uploading and verification processes to improve data management and user interaction.

## Education

### Sir Syed Case Institute of Technology

2020-2024

- Bachelor of Science in Computer Science

## Skills

- Flutter
- Firebase
- Nodejs
- C++/C#
- Problem-solving
- Creativity
